Client's ref.: 91117 File: 0548-8734 US/f/Lemon

What is claimed is:

- 1 1. A roller comprising:
- a shaft; and
- a sponge sleeve, enclosing the shaft;
- wherein a central portion of the shaft is thicker than
- the ends of the shaft.
- 2. 2. A roller comprising:
- 2 a shaft;
- a sponge sleeve, enclosing the shaft; and
- an inflatable chamber, disposed between the shaft and
- the sponge sleeve, a central portion thereof
- thicker than the ends thereof.
- 3. 3. The roller as claimed in claim 2, wherein
- the inflatable chamber is of elastic materials.
- 1 4. 4. The roller as claimed in claim 3, wherein by
- introducing a working flow into the inflatable chamber, the
- 3 thickness of the central portion of the inflatable chamber
- 4 is adjustable.
- 5. 5. The roller as claimed in claim 4, wherein
- the working flow is air.
- 6. 6. A cleaning apparatus comprising:
- the roller as claimed in claim 4;
- a rotary joint, disposed on the roller; and
- a supply apparatus, connected to the rotary joint.
